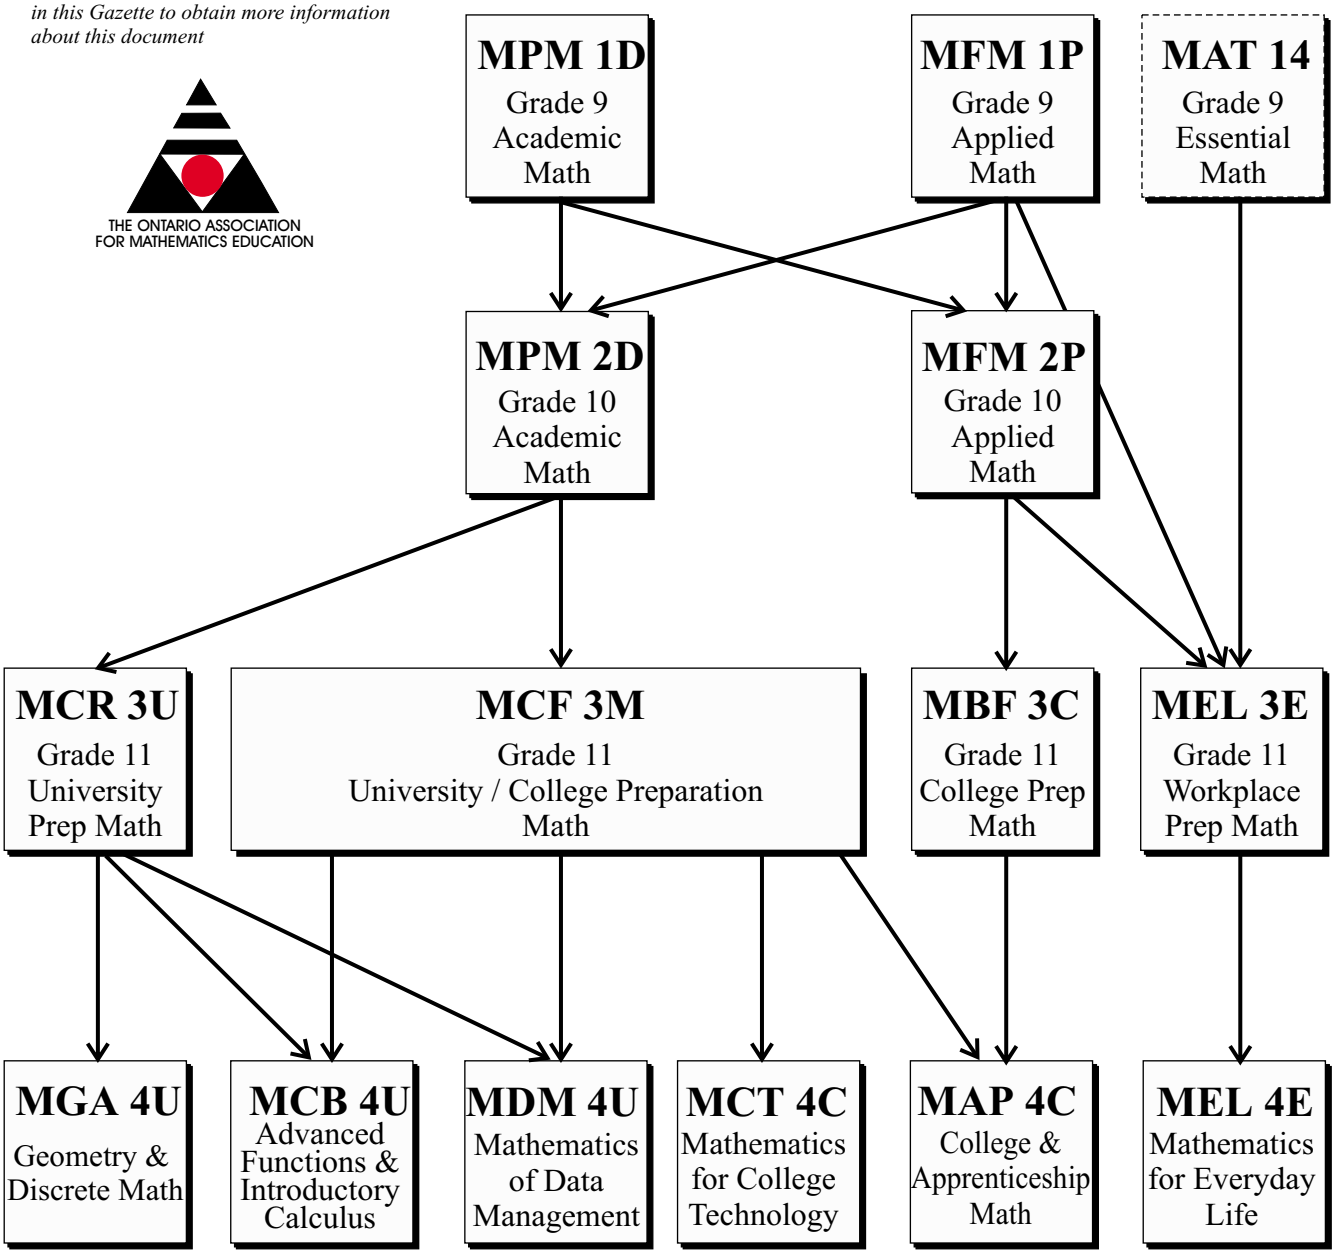
The Ontario Curriculum: Possible Pathways in Mathematics*

Note: Please read the President's Message in this Gazette to obtain more information about this document

THE ONTARIO ASSOCIATION FOR MATHEMATICS EDUCATION



*While the pathways illustrated above are the most likely to occur, other pathways are possible. Consult your guidance counsellor or mathematics teacher for more information.

Transfer courses are available for partial credit to facilitate the move from one course type to another.

To graduate, a student must have 3 credits in mathematics, with one of the credits at the grade 11 or 12 level.
