

### **Borrower's Guide**

- *Besides from the unit itself, a major part of the final evaluation for this unit is a Borrower's Guide, which students will need to create with all the information given to them throughout the unit.*
- *Each student will need a duo-tang or folder to record his or her discoveries.*
- *The guide must be kept up-to-date (computerized: much easier to add, move or delete information).*
- *The Borrower's Guide should be a portfolio of student work meant to be a guide to potential borrowers.*
- *The following should be included in the Borrower's Guide:*
  - ☐ *Borrower's Dictionary*
  - ☐ *Credit (or Credit Card) Section*
  - ☐ *Advantages & Disadvantages of Credit*
  - ☐ *Borrowing Advantages & Disadvantages*
  - ☐ *Tips and information for the potential borrower*
  - ☐ *Loans section*
  - ☐ *A chart which compares the 3 types of loans*
  - ☐ *Trends page*
  - ☐ *Important internet websites*
  - ☐ *Other information that you see as important and relevant*
