Friday, November 10th, 2017
Centurion Conference & Event Center
170 Colonnade Road
Ottawa, ON

Time	Activity
7:30 - 8:45 am	Registration
8:45 - 9:00 am	Opening Remarks
9:00 - 10:00 am	<p>Keynote with Dr. Peter Liljedahl <i>Building a Thinking Mathematics Classroom</i> We know that problem solving is an effective way for students to learn to think mathematically and to acquire deep knowledge and understanding of the mathematics they are learning. Simply problematizing the mathematics curriculum, however, does not help constitute the practice that teachers want or students need. Equally, infusion of problem-based learning into the mathematics curriculum does not help with the transformations we want to see in our classrooms. What we need are a set of tools that, along with good problems, can build thinking classrooms. In this presentation, Dr. Peter Liljedahl looks at a series of such tools, emerging from research, that can help to build an environment conducive to problem-based learning.</p>
10:00 - 10:15 am	Break
10:15 am - 11:30 pm	<p>Thinking Classroom Breakouts * Consultants, Coaches, & Administrators Dr. Peter Liljedahl * Elementary Pierre Tranchemontagne (French) Jamie DePippo (English) * Secondary Karine Rozon (French) Jimmy Pai & Alex Overwijk (English)</p>
